

Workforce Analysis: Children and Young People's Mental Health and Wellbeing – Wider system

This questionnaire is aimed at any member of the workforce supporting the mental health and wellbeing for children and young people. You may be working in a school, as part of the NHS or the local authority, in the voluntary sector or as an independent provider.

This questionnaire is intended to provide information required to understand the current workforce capacity and capability to meet the needs of children, young people and their families in each of the five THRIVE needs based groups.

Services are being redesigned to align with the THRIVE framework (Wolpert et al., 2016). The framework puts an emphasis on the promotion of mental wellbeing and early intervention.

Introducing i-THRIVE

i-THRIVE is the implementation of the THRIVE conceptual framework (Wolpert et al., 2016), using an evidence based approach to implementation to translate the principles of THRIVE into models of care that fit with local context. i-THRIVE has been designed to enable provision of services that move towards delivery of a population health model for child mental health. It strives to ensure continuous quality improvement of services, drawing from evidence based implementation science to ensure that children, young people and families get the best possible outcomes.

The THRIVE framework was developed by a collaboration of authors from the Anna Freud National Centre for Children and Families and the Tavistock and Portman NHS Foundation Trust. THRIVE is an integrated, person centred and needs led approach to delivering mental health services for children, young people and families which conceptualises need in five categories; Thriving, Getting Advice, Getting Help, Getting More Help and Getting Risk Support. Emphasis is placed on prevention and the promotion of mental health and wellbeing and clients are empowered to be actively involved in decisions about their care through shared decision making.

The five THRIVE needs-based groups:

- THRIVING All children, young people and their families not currently needing
 individualised mental health advice or help are considered to be thriving. THRIVE would
 suggest that this group receive community initiatives that support mental wellness,
 emotional wellbeing and resilience of the whole population.
- **GETTING ADVICE** is for CYP and families adjusting to life circumstances who have mild or temporary difficulties, where the best approach is a brief intervention of 1-2 CAMHS appointments, with the possible addition of self-support via online or other resources.
- **GETTING HELP** is selected for CYP and families who would benefit from focused evidence based treatment with clear goals and the review of progress towards goals. On average 10 appointments would be offered, but the range would be wide, e.g. 1 year of weekly psychotherapy.

- GETTING MORE HELP is where the need is for intensive and potentially long-term treatment, for example for young people with neurodevelopmental disorders, psychosis or emerging personality disorder.
 It is recognised that a significant number of CYP and families receiving Getting More
 - Help are not benefiting from treatment but are being held in the CAMHS service solely because of concerns about risk and safeguarding. Such cases should be considered for Risk Support.
- GETTING RISK SUPPORT is where CYP and families are unable to benefit from treatment but they remain a significant concern and risk. Anticipated outcomes are realistically conservative, and there needs to be close interagency collaboration, which includes CAMHS as part of the network. The CAMHS role is usually one which supports the system. One is transparent with families that this is the approach that is being taken.

Consent and confidentiality

You are invited to participate in this survey designed by the Anna Freud National Centre for Children and Families to support the implementation of THRIVE across children and young people's mental health and wellbeing services.

This survey should take about 20 minutes to complete. Your participation in this study is entirely voluntary and you can withdraw at any time. You are also free to omit any question.

If you don't know the answer to any of the questions, don't worry, it is not expected that everyone will have all the answers. Please just tick the "don't know" option and move on.

The results of this survey will be used to inform a mapping document which we will share with participants so knowledge of 'what's out there' is shared across the system.

We will minimize any risks of confidentiality breach by limiting the people accessing the raw data to the Project Manager and the Project Officer. Raw data will be destroyed once the project has reached its completion.

Many thanks for contributing to the development and improvement of local services for children and young people's mental health. Your time and the information you provide is very much appreciated.

The survey

Firstl	y, a few details about you:
Pers	onal details:
1.	Full name:
2.	Email address:
3.	Job title:
4.	What job sector do you work in? Please tick.
	□ Local Authority (e.g. Social Care, Public Health)
	□ Health (e.g. the NHS)
	□ Voluntary of Independent Sector (e.g. Charities)
	□ Education (e.g. Schools, Colleges)
	□ Other (please specify)
Опе	stions about the organisation you work for:
	What type of organisation do you work for?
6.	Please provide a brief description of the organisation you work for, and if you are in team providing services to children and young people, the team you work in.
7.	In which borough is your team or service based?

8.	Which boroughs do your team or service offer input to?
9.	What is the primary location where you deliver interventions to children and young people/parents/carers/families for their mental health and emotional well-being?
	Please tick.
	□ In a clinic setting
	□ At client's home
	□ At school
	☐ In the community (e.g. youth clubs, spiritual centres, etc.)
	□ Online
	□ Not applicable
	□ I don't have any information
	□ Other (please specify)
10	Please provide your team or organisation's contact details:
	Organisation name:
	• Address:
	Phone number:
	Email Address:

Questions about the staff in your team or organisation:

11. How many staff in your organisation or team work directly with young people to support their mental health and wellbeing as their main role? What types of intervention or activity do they do?

	Number of staff in this profession /role	Number of Young People they see over the course of one year (please estimate and enter a number)	Do they provide one to one intervention s?	Do they deliver group work?	Do they offer consultation to other professionals ?	Do they offer supervision to other staff?

Questions about the support you receive in your organisation:

30.	what training have the people in your team providing interventions/services received
	Please tick all that apply.
	□ No training
	□ Some training specific to my role
	☐ Trained to deliver specific interventions e.g. Triple P
	☐ Trained to accreditation/professional standards
	□ Not applicable
	Other (please specify)
31	How often do your staff who provide the interventions/services receive supervision fo
	this work? Please tick.
	□ Weekly
	□ Monthly
	□ As requested
	□ As needed
	□ Rarely
	□ Never
Quest	ons about how you relate to other teams and services:
32.	Does your organisation or team participate in, or offer, any; joint training, education of
	relationship building opportunities to outside partner organisations? If so pleas
	describe them.

3. Do staff at your organisation or in your team routinely offer mental health awarened raising to other professionals, either within or outside your organisation? If so, how	
they do this?	
4. What other agencies do you refer to? Or work closely with?	
5. Is there anything else your service offers you would like to tell us about that has	not
been covered?	

Thank you for completing this questionnaire.
